May the great essence flower in our lives and expand throughout the world. May we learn to let it shine through so we can augment its glory. We praise, we continue to praise, and yet, whatever it is that we praise is quite beyond the grasp of all these words and symbols that point us toward it. We know, and yet we do not know.

May great peace pour forth from the heavens for us, for all of humanity, and especially for all who struggle toward truth. May that which makes harmony in the cosmos bring peace within us and between us and to all who dwell on this earth and let us say Amen.
